EDUCATION

B.S.
Computer Engineering
**Jordan University of
Science and Technology**

📅 2018 - 2023
📍 Ar-Ramtha, Jordan

SKILLS

- JavaScript
- HTML/ CSS
- React.js
- Eclipse
- Bootstrap
- C#
- C++
- Microsoft Office
- Windows Operating System

SOFT SKILLS

- Communication
- Teamwork
- Flexibility
- Confidence
- Problem Solving
- Self-Learning

CAREER OBJECTIVE

Computer engineer with a proven ability to adapt in both self-starting and collaborative environments while staying focused on achieving high-quality results under strict deadlines. I admire your style of training and want to develop similar skills. Hardworking and eager to get opportunities to improve myself professionally and contribute to the growth of organization.

Professional Skills

Highly skilled and resourceful Entry Level computer Engineer with a superb work ethic and engineering research background. Adept at explaining extremely complex engineering principles and procedures to a wide variety of professional and non-professional audiences. Strong multitasker able to handle simultaneous repair tasks with full accuracy and efficiency.

PROJECTS

🌐 UML-Console-Project

I applied with a group of students UML concepts to design use-case, class and sequence diagrams and used Git control system to collaboratively implement a console delivery and ordering system using C#, we created a discord server with a bot that notifies us on every commit, and we got a mark of 14/15 on UML and 100/100 on code.

🌐 OS Threading Assignment

I applied with a team of students to what we learnt on operating systems course to implement a Matrix Multiplication Multi-Threaded program and got a mark of 10/10.

🌐 Project Tracker

We implemented Software engineering concepts and used web technologies like HTML, CSS, JS and Bootstrap to create a website that works as a project tracker.

COURSES

- The complete 2022 Web Development Bootcamp by Dr. Angela Yu on Udemy.
- Flutter & Dart – The Complete Guide by Maximilian Schwarzmüller on Udemy.
